PHYSICAL EFFORT

<input type="checkbox"/>	Routine office environment. Limited physical effort. A variety of typical office requirements such as sitting, standing and walking. Limited physical effort. Limited intense visual concentration is required. Infrequent physical effort (lifting, bending, etc.); Infrequent peaks of concentration are necessary for short periods from time to time (e.g. several minutes up to half an hour) Interruptions or distractions occur occasionally, but do not interfere with completion of quality of work as the nature of the work is highly repetitive and routine
<input checked="" type="checkbox"/>	Moderate physical effort, requires occasional lifting, bending, standing, climbing ladders, etc. Requires extended periods of standing or moving. Manual dexterity can include handling of items or tools of various sizes, sorting or manipulating small parts or materials or tools, where the pace of work can largely be controlled. Intense visual concentration is greater than 50% of the time. Moderate peaks of concentration (e.g. up to half day) are a typical, with some ability to control this by taking breaks from the task. Interruptions or distractions occur frequently and sometimes interfere with output quality or timeliness. Time pressures with the job are noticeable, but are not frequent or significant. May perform a moderate level of heavy physical activities (pulling, lifting, pushing heavy or awkward objects, etc.). May require some specialized training and/or use of safety equipment.
<input type="checkbox"/>	Regular, frequent or sustained and considerable physical effort is required with limited opportunities to rest except at scheduled breaks. May require a degree of major physical effort over an extended period of time. Requires frequent or regular considerable moving, standing or heavy physical activities (e.g. lifting, moving, or pulling heavy awkward objects on a regular basis). Typically requires some specialized training (certifications, etc.) and/or use of safety equipment. May also require personal protective equipment. Regular, frequent or sustained, and substantial peaks of concentration are a typical throughout the day. It may not be possible to take breaks from tasks due to time pressures and deadlines that often oblige continuation until task completed. Interruptions and distractions occur frequently, and often to significantly interfere with the ability to complete the task correctly/in timely manner and consistently.

WORK ENVIRONMENT	
<input type="checkbox"/>	Routine office environment. Limited exposure to disagreeable aspects such as noise, heat/cold, dust, fumes, etc.
<input checked="" type="checkbox"/>	Moderate exposure to disagreeable aspects of the work environment. The job may require occasional exposure, but is limited in terms of frequency, severity, and/or duration. May require some specialized training, and/or use of safety equipment.
<input type="checkbox"/>	Considerable, frequent or ongoing exposure to disagreeable aspects of the work environment. The job requires regular exposure in terms of frequency, severity, and/or duration. Typically requires some specialized training (certifications, etc.), and/or use of safety equipment. May also require personal protective equipment.
