

Where Versatility Meets Purpose in Veterinary Medicine

At **Martin Veterinary Services**, no two days look the same, and that is exactly what makes this place special. As a **true mixed animal practice**, we care for both small and large animals, combining in-clinic medicine with **ambulatory services** to support pets and livestock. This is a fast-paced, hands-on environment where you are **constantly learning** and making a real impact, from routine wellness and surgery to urgent care and herd health. The **variety of cases and connection to the local agricultural community** make the work meaningful and rewarding.

Hear From Our Clients

"Absolutely the most amazing people and best care we could have ever asked for."

"Simply amazing. The care and concern, professionalism and love that they show towards animals is unmatched."

A Team That Works Hard, Everyday

Our culture is built on **hard work, respect, and shared responsibility**. In a mixed animal setting, teamwork isn't optional, it's essential. Whether you're in the clinic or out on a farm call, you'll be part of a team that communicates clearly, steps in when needed, and keeps things moving. We take pride in doing **meaningful work** and doing it well, while creating an environment where you can **grow your skills, build strong client relationships, and support each other through busy days**.
