

# Love What You Do, Love Where You Work

Expand your expertise, boost your confidence, and join a team that's passionate about providing the highest level of veterinary care to every patient.

Tucked away in the stunning Ozark Mountains, our mixed animal practice is anything but ordinary. One minute, you're caring for a family's beloved pup, the next, you're out in the field with cattle—or even treating an exotic pet that wandered into town. Having served this amazing community since 1990, we're more than just the local vet—we're neighbors, problem-solvers, and animal lovers through and through. With a backdrop this beautiful and a caseload this unique, it's the perfect place to call home.

## Grow Your Career with a Team That Cares

For over 30 years, we've been the go-to vets in town—the ones people trust with everything from their wiggly new puppies to their prize-winning livestock. Our team is tight-knit and our clinic feels more like a second home than a workplace. Set in a gorgeous rural spot where the air is fresh and life moves a little slower, it's a dream for anyone who loves wide-open spaces and a good front porch sunset. And because we believe in paying it forward, we've got an on-site apartment for externship students—because the best way to learn is to live it.

## Ready to Provide Outstanding Care

Our clinic is a spacious, clean, and well-equipped to provide exceptional care.

- Ultrasound, digital x-ray, and in-house diagnostic labs
- Outfitted for orthopedic services and dental care
- On-site crematorium to support clients in their toughest moments
