

Steady Pace. Strong Team. Real Growth.

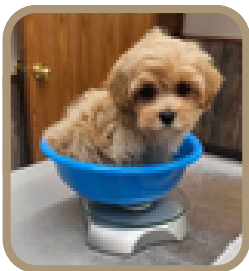

Clinton Animal Hospital has been a staple in the Louisiana community for over 44 years. The practice has built **lasting relationships across generations**, caring for original clients and now their adult children, alongside the DVM who founded the hospital and still practices today. What sets this team apart is the **strong employee retention and satisfaction**, with team members from 2-30 years of tenure. From preventative care to surgery, reproductive services to boarding, patients are supported through every stage of life in one place. The pace is steady, the workflow is organized, and **client education** is at the center of everything we do.

Hear from Our Happy Pet Owners

"Much love, caring & compassion for the patient & their humans! Highly recommend CAH."

"We have been bringing our pets to Clinton Animal Hospital for 27 years. The clinic is very clean and all employees are professional, courteous and caring."

Advanced Care, All In One Place

The hospital sits on over an acre of land and includes **two exam rooms, a dedicated surgical suite, and a large kennel area** for boarding and hospitalized patients. We're equipped to handle:

- Digital Radiology
- In-House Lab (CBC, Chemistry, Urinalysis)
- **Orthopedic Procedures**
- **Canine Reproductive Services**
- Oxygen Therapy

A Steady, Supportive Way of Working

Our culture speaks for itself. **Retention is strong**, with team members who have been here for 30+ years and our newest hire already two years in their role. That consistency creates trust, clear communication, and **a team that knows how to operate cohesively** in a fast-paced environment. The team values strong relationships with clients. It's a collaborative environment where people step in to help each other and take ownership of how the day runs.

A Better Pace of Living

Clinton offers a slower, more grounded pace of life where things feel familiar in the best way. It's a growing town with new businesses, while still maintaining its charm with rolling hills, clean surroundings, and a tight-knit, friendly community. The lower cost of living makes it easier to own a home, have space, and enjoy life outside of work. Day-to-day life centers around simple, outdoor living, with time spent at places like Mary Ann Brown Preserve or local events. For more variety, Baton Rouge is just a short drive away!
