

Innovative Medicine. Trusted Team. Unmatched Care.

At Franklin Animal Clinic, growth is woven into the heart of our culture. Our team is driven by curiosity, compassion, and a shared commitment to delivering truly exceptional medicine. We are supported by skilled technicians and a leadership team that values mentorship, education, and innovative veterinary care. And with exciting plans underway to expand our services into mixed animal medicine, our practice is entering an inspiring new chapter. Franklin is a place where learning is celebrated, teamwork comes first, and progressive care continues to shape our future every day!

A Culture of Support

Teamwork is at the heart of everything we do. With at least three DVMs scheduled per shift and a strong technician-to-doctor ratio, support is always close by. We empower our team to share ideas, try new approaches, and make a meaningful impact on the care we provide and the community we serve.

Words From Our Pet Parents:

Hear about your future teammates!

"The staff is amazing and you can tell they truly care about your fur babies!"

"The staff is always so warm and welcoming to everyone."
