

## SINGLE CORPORATE SERVICES

### Research and Development

<b>Job title:</b>	Research Nurse	<b>To be completed by HR</b>  <i>Job Reference Number</i>
<b>Reporting to:</b>	Specialist Research Nurse/Senior Research Sister	
<b>Accountable to:</b>	Lead Research Nurse	
<b>Pay Band:</b>	B5	

As part of the Single Corporate Service, this role is a designated site-based role however the post holder will be part of the Corporate Service team which provides a service across both Isle of Wight NHS Trust and Portsmouth Hospitals University NHS Trust.

As the single corporate service will be delivered across both organisations, individuals may be required to undertake business travel between sites. The frequency and arrangements will be discussed on an individual basis and the staff mobility local agreement will apply.

For our leaders managing staff across multi-site locations, they will need to be visible and provide in person leadership. The arrangements and frequency will be agreed locally.

#### Job purpose

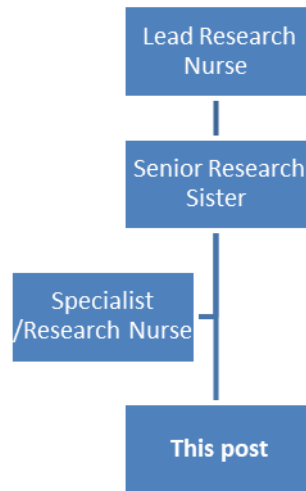

To provide support to study research team, Senior Research Sisters, Research Nurse Leads, Clinical Research Leads in delivering high quality clinical research.

To recruit patients into Clinical Trials designated as 'portfolio' studies by the NIHR and/or Commercially Sponsored Clinical Trials.

#### Job summary

1. Work as part of a cohesive multidisciplinary team ensuring patient care is delivered smoothly and efficiently.
2. To work as part of a team to deliver Clinical Trials within the organisation.
3. To be responsible for contributing to and maintaining a high standard of day-to-day clinical care for all patients.
4. To provide support to study Research Teams, ultimately the Chief Research Officer in delivering high quality clinical research.
5. To recruit patients into Clinical Trials designated as 'portfolio' studies by the NIHR and/or Commercially Sponsored Clinical Trials.
6. Support the Trust culture of collaborative, flexible cross-team working and commitment to delivering quality services and outcomes, which support the Government's policies on public health.
7. The expectations within this job description will be achieved through hands-on clinical practice, education and training.

## Organisational Chart

## Specific Core Functions

### Clinical/Professional

- Act as a professional role model, demonstrate clinical skills, promote clinical excellence and ensure an optimum standard of nursing care is delivered to all patients/research participants.
- Promote and set high standards of nursing care and maintain the delivery of quality care within the trust policies, protocols and guidelines.
- Provide and deliver a high standard of evidence based nursing care through the assessment, planning, and evaluating of individual patients needs based on evidence. Initiate and co-ordinate care in the clinical area for a specified group of patients.
- Recognise and respond to a change in patient status undertaking first line interventions within scope of practice and refer on to the appropriate clinician as required.
- Actively promote safe and effective working practices to prevent harm to the patients within your care and take part in safety audits and monitoring to maintain high quality standards.
- Communicate and work with the multidisciplinary team to improve quality of care, and informed clinical decisions. Promote innovation and share any new ideas to improve patient care.
- Coordinate patient care and trial procedures for a clinical area of practice once deemed competent to do so.
- Liaise, report and document any relevant nursing/patient needs with other health care professionals with on-going responsibility for patient care, communicating changes as they occur.
- Ensure that accurate and timely patient records are maintained.
- Implement the Trust Values ensuring they are embedded into everyday practice and evaluate their impact on the patients' experience.
- Engage and interact with carers/family encouraging them to be actively involved in patient's involvement in research.

- Ensure concerns raised by patients and their families are escalated and dealt with in an open, honest and transparent way, in line with trust policies, procedures and Duty of Candour legislation.
- Maintain and continually develop in-depth specialist knowledge of nursing practice relevant to the individual clinical speciality.
- Achieve competence in the use of medical devices/equipment by accessing training and maintain these.
- Promote health education within the clinical area and advise patient, family, and others in health promotion issues, making every contact count. Promote the health and well-being of staff, patients and their carers.
- Maintain links with other Research Nurses, Clinical Trial Practitioners and Clinical Nurse Specialists, to share knowledge and act as a mutual support.

### ***Management and Leadership***

- Report, escalate and manage patient safety events and clinical emergencies as detailed in Trust-wide and local research protocols and procedures.
- Be proactive in the prevention and management of complaints (formal and those via Patient Advice and Liaison Service) and when they occur investigate and respond in a timely manner.
- In conjunction with other team members, participate in quality monitoring and improvements.
- Comply and promote compliance with Trust policies and guidelines e.g. Health and Safety, Clinical Risk and Infection Control.
- Take appropriate action to address unexpected changes and situations, informing the Senior Research Team or other if unable to resolve.
- Contribute to the clinical area non-pay budgets to ensuring good housekeeping and economic use of resources.
- Delegate duties and tasks to un-registered staff, students/trainees and other staff at Bands 1 to 4 as appropriate.
- Demonstrate an awareness of and compliance with health and safety regulations/procedures that apply to staff, patients, and visitors within Trust premises.
- Work closely with partners i.e. estates and facilities management team, resolving any issues regarding cleanliness, provision of food and maintenance of the environment. Ensure staff are aware how to escalate when issues cannot be resolved.

### **Research and Education**

- Contribute to the coordination and delivery of Clinical Trial activities within the Organisation.
- Assist in the review of new Trial protocols and contribute to the assessment of their clinical and practical implications (including feasibility and risk) to patients.
- Lead low risk research trials with oversight from your line manager and senior colleagues.
- Assist in the identification, screening and assessment of the suitability of local patients to take part in Clinical Trials, in accordance with specified inclusion/exclusion criteria.
- Provide specialist information to patients about taking part in Clinical Trials, including the risks and benefits of participation in specific protocols.
- Facilitate the process of gaining informed consent from participants.

- Ensure that Trial-specific investigations and sampling are undertaken as required by the protocol in order to establish the eligibility of patients and to ensure their safe entry into Trials
- Act as a contact for Clinical Trial patients and assist in the setting of standards of care for patients in Clinical Trials, using a patient focused approach.
- Promote research at ward level, encouraging staff to support research in order to aid recruitment, embedding research into clinical care.
- Provide Research Nurse support to Principal Investigators in delivering timely, safe, and quality Research Trials.
- Support liaison with other clinical departments, support departments and external partners to maximise the potential of trials recruiting to time and target.
- Maintain accurate documentation in an auditable format, and accurately record data as required by each Trial and to work to Standard Operating Procedures (SOPS) for Clinical Trials activity.
- Assist in the monitoring of the local performance of Trials' activity and the use of resources when prescribing and implementing care and treatments in accordance with Trial protocols.
- Use and maintain competence in the use of IT systems to organise, record, report and monitor Trials' activities.
- Help identify barriers to recruitment and performance, communicating these to the Senior colleagues, the MDT and wider research team.
- Ensure that all activities undertaken meet the standards set out in the Principles of Good Clinical Practice and UK Policy Framework for Health & social Care Research and adhere to all applicable Regulatory requirements (e.g. Medicines for Human Use (Clinical Trials) Regulations)
- Demonstrate a commitment to evidence based practice, highlight areas for change, and support the initiation and evaluation of evidence to improve and develop patient care.

### ***Education***

- Participate fully in the Appraisal and Development Review Process.
- Provide a positive learning environment creating a culture for learning and development that will sustain person-centred safe and effective care. Encourage team open-ness so that an evidence based approach is utilised and applied to nursing care.
- Supervise, assess, mentor students and support all Health Care Professionals, junior staff including bank and agency staff.
- Encourage a culture where students receive quality placements supported by mentorship and teaching from the multi-professional team.
- Responsible for ensuring that ward/department staff undertake essential training.
- As a member of the team contribute to the development of clinical and professional nursing practice.
- Support and contribute to the orientation of new/temp staff and preceptorship for junior nurses.
- Achieve and maintain research skills and knowledge in accordance with departmental guidance frameworks.
- Maintain personal and professional development to meet the changing demands of the job, participate in appropriate training activities and encourage and support staff development and training.

- Act in such a way that at all times the health and well-being of children and vulnerable adults is safeguarded. Familiarisation with and adherence to the Safeguarding Policies of the Trust is an essential requirement for all employees. In addition all staff are expected to complete essential/mandatory training in this area.
- GCP to be kept up to date as per trust requirements.

### ***Communication and Working Relations***

- Communicate highly sensitive and complex information with empathy ensuring that information is understood.
- Communicating and co-operating with other wards and departments, promoting and maintaining good working relationships within own clinical area and across the organisation, giving accurate information as required and keeping everyone informed of any untoward incidents.
- Deal with interpersonal conflict and escalate to senior nurse to assist with resolution of any adverse situation/incidents. Comply and promote compliance to Trust policies e.g. Harassment and Bullying.
- Participate in the induction of temporary staff to department policies and routine.
- Develop positive relationships with all members of the multi-disciplinary team contributing to good team working and collaborative working practices.
- Contribute to a supportive environment for all staff.

### ***Working Conditions and Effort***

- May be frequently exposed to distressing circumstances e.g. if working with patients who are terminally ill and their families and/or exposed to other conditions.
- Occasional/frequent exposure to unpleasant or highly unpleasant working conditions e.g. bodily fluids, smell, etc.
- Adhere to Trust policies and procedures, e.g. Health and Safety at Work, Equal Opportunities, and No Smoking.
- May be required to work unsocial hours as necessary dependent on the needs of the service.
- May be required to work across more than one location e.g. Research Hubs
- Support the Trust at times of high pressure, undertaking training as required in order to maintain clinical nursing skills.
- Respect the confidentiality of all matters that they may learn relating to their employment and other members of staff. All staff are expected to respect and conform to the requirements of current data security and confidentiality legislation including the responsibility to ensure that personal data is accurate and kept up to date.

## **Key Responsibilities**

### ***Communication and Working Relationships***

- The post holder will be providing and receiving routine information orally, in writing or electronically to inform work colleagues, patients, clients, carers, the public or other external contacts. The communication will include;
  - (a) Providing and receiving routine information which requires tact or persuasive skills or where there are barriers to understanding
  - (b) providing and receiving complex or sensitive information,
  - (c) providing advice, instruction, or training to groups, where the subject matter is straightforward.

### **Compliance statement to expected organisational standards.**

To comply with all Trust Policies and Procedure, with particular regard to

- Risk Management
- Health and Safety
- Confidentiality
- Data Quality
- Freedom of Information
- Equality Diversity and Inclusion
- Promoting Dignity at Work by raising concerns about bullying and harassment
- Information and Security Management and Information Governance
- Counter Fraud and Bribery

The Trust has designated the prevention and control of healthcare associated infection (HCAI) as a core patient safety issue. As part of the duty of care to patients, all staff are expected to:

Understand duty to adhere to policies and protocols applicable to infection prevention and control.

- Comply with key clinical care policies and protocols for prevention and control of infection at all time; this includes compliance with Trust policies for hand hygiene, standards (universal) infection precautions and safe handling and disposal of sharps.
- All staff should be aware of the Trust's Infection Control policies and other key clinical policies relevant to their work and how to access them.
- All staff will be expected to attend prevention and infection control training, teaching and updates (induction and mandatory teacher) as appropriate for their area of work, and be able to provide evidence of this at appraisal.
- To perform your duties to the highest standard with particular regard to effective and efficient use of resources, maintaining quality and contributing to improvements.
- Ensure you work towards the Knowledge and Skills Framework (KSF) requirements of this post. KSF is a competency framework that describes the knowledge and skills necessary for the post in order to deliver a quality service.
- Your behaviour will demonstrate the values and vision of the Trust by showing you care for others, that you act professionally as part of a team and that you will continually seek to innovate and improve. Our vision, values and behaviours have been designed to ensure that everyone is clear about expected behaviours and desired ways of working in addition to the professional and clinical requirements of their roles.
- Ensure you adhere to and work within local and national safeguarding children legislation and policies including the Children Act 1989 & 2004 , Working Together to Safeguard Children 2013, 4LSCB guidance and the IOW Safeguarding Policy.

- Ensure you adhere to and work within the local Multiagency safeguarding vulnerable adults policies and procedures
- Ensure that you comply with the Mental Capacity Act and its Code of Practice when working with adults who may be unable to make decisions for themselves,
- Ensure that you maintain personal and professional development to meet the changing demands of the job, participate in appropriate training activities and encourage and support staff development and training.
- Respect the confidentiality of all matters that they may learn relating to their employment and other members of staff. All staff are expected to respect conform to the requirements of the Data Protection Act 1998, including the responsibility to ensure that personal data is accurate and kept up to date
- If your employment is to a post that requires you to be registered with a professional body, the continuation of your employment is conditional upon you continuing to be registered with the appropriate professional body. The Trust will require evidence of current registration.
- Proactively, meaningfully and consistently demonstrate the Trust Values in your every day practice, decision making and interactions with patients and colleagues.
- Perform any other duties that may be required from time to time.

This job description may be altered, from time to time, to meet changing needs of the service, and will be reviewed in consultation with the post holder.
