

## Consultant Job Plan

Name:	Fixed Term Consultant Nephrologist
Primary Speciality:	Nephrology
Secondary Speciality:	

### Job Content

Below is an indicative 5-week job plan, which will be similar for the advertised post. A more detailed job plan will be discussed after successful appointment. Due to the nature of ward weeks these weeks will exceed 10 PAs but this will be compensated in the other weeks. Travel to the peripheral site will also be accounted for in the job plan.

The post holder is entitled to a lunch break between morning and afternoon sessions and the post will allow 20 minutes break for every 4 hours worked.

The post holder will do 2 weeks of ward cover every 10 weeks, including a weekend. During this time the post holder should be present in the hospital between 08:30 and 17:00 Monday to Friday, Weekend work is variable but anticipated to be 6 hours work on each day.

During one of the ward weeks the post holder will be the Consultant Nephrologist oncall for 7 days. This involves a non-resident Out of Hours on-call commitment as back up to the renal registrar and transplant team if needed. On call supplement is added for this commitment.

Week	Day	am	pm	SPA (PA)	DCC(PA)
