

What is your Peace of Mind?

All around the globe customers rely on our safe connecting solutions. But we are also a reliable partner for our employees. About 1,800 colleagues in more than 30 countries play their part in ensuring that our products optimally combine mission-critical components. Whether it's motors, airbags or heart pumps – every day we develop connecting solutions for a wide variety of industries and thus take important steps towards a better future. Would you like to be a part of it? Find your peace of mind!

Founded as Jiffy-tite Company in 1963, initially the main product was a quick connect-disconnect fluid coupler invented by Bob Zillig and sold to plastic injection-molding firms to reduce the time needed to change molds. In the 1980s, automobile manufacturers became interested in quick connect technology to improve the reliability and cost of fluid connections in their assembly plants. Led by Steve Zillig, son of Bob Zillig, Jiffy-tite became the world leader of highly engineered fluid connection parts and assemblies. In March 2016, the company was acquired by Oetiker Group and renamed to Oetiker NY, INC. (ONY).

Screw Machine Operator
