We create **strong**
connections.

Oetiker employees make strong connections every day. Whether it's in the automotive industry or in medical technology: our reliable solutions are used wherever it is important to securely connect different components. This is what our customers all over the world rely on. For about 1,800 colleagues in more than 30 countries, we are an employer that values diversity and offers reliability. When can we get in touch with you?

In this position you will predominantly focus on leading and transforming the global IT organization to strongly support Oetiker's growth strategy. You will expand and lead the group-wide IT framework and service catalogue and initiate the strategic digitalization trajectory. The role holder will travel globally and partly work from remote whilst having it's homebase in our manufacturing plant in **El Puerto de Santa María (Cádiz)** and report to the Group CFO, located in Switzerland.

Group Head IT & Digitalization (f/m/d)

WHAT YOU'LL DO

- Design, plan and deliver digitalization in alignment with the IT strategy and offering to enable business growth
- Scale up the IT service catalogue including outsourcing partnerships towards standardized on demand services
- Redefine the IT framework and processes (ITIL, Cobit, Service Level Agreements) where needed
- Lead a decentralized team, transform and support in becoming business partners; assure strong leadership and expertise.
- Plan and manage cost and capex for IT/Digitalization in accordance with group financial and business goals
- Practice cross-functional/-intercultural effectiveness, expert autonomy and a proactive and hands-on attitude.

WHAT YOU'LL GET

- A unique company culture in a global environment
- Join a successful business, following a long-term strategy
- Global responsibility with room to act and chances to grow in experience, knowledge, network and satisfaction.
- Help shaping next generation mobility solutions in a fast-paced industry
- Competitive compensation incl. bonus plus benefits.

WHAT YOU'LL NEED

- BA/BSc/BBA or equivalent degree in computer science or engineering; Master's degree or MBA from a recognizable university / business school
- Several years with relevant experience in IT-leading roles multinationals with decentral operational structures
- Track record of transforming IT organizations and digital transformation expertise
- Profound experience in leadership and collaboration within industrial matrix organizations
- Fluent in English and Spanish; additional language skills are beneficial
- Willingness to take part in a comprehensive, continuous transformation program
- Ability to establish strong relationship with executives and business leaders; solid intercultural competence
- Capability and reliable experience in leveraging present and future technologies into competitive advantages
- Commitment to provide high standards of client services
- Knowledge and experience with ITIL, Cobit and DevOps

We strongly encourage equal rights.
Oetiker appreciates each and every candidate and explicitly supports a diverse and balanced workforce.
Get to know us to get ahead.
