

Grankaz was conceptualized and created in 2014 upon observing a need in the market for an updated and modern entertainment centre for discerning slot players who enjoy the relaxation of gaming in a pleasant, attractive and spacious atmosphere.

Transforming Mercury House in Francis Rachel Street from a dilapidated ruin, to a picturesque, safe and authentic landmark with all modern conveniences and technologically advanced fixtures and fittings, making a Seychelles Heritage building a source of pride and adulation.

What we offer

Offering over 150 of the latest most technologically advanced slot machines in a visually exciting, spacious building, climate controlled with comfortable seating gives Grankaz a distinctive position above competitors.

The live games Casino located in an annex to Mercury House in Victoria, contains a Table Games area. Here you can play Roulette, Black Jack, Stud Poker, Russian Poker, Casino Hold 'em Poker, and Texas hold 'em Poker.

In November 2017, Gran Kaz opened a third venue in the North of Mahe, in Bel Ombre comprising a Bar and Grill, and housing an additional 60 slot machines.

Gran Kaz offers the convenience of smart cashless gaming – no more grubby hands from coins, no queues, no fuss, just sheer gaming enjoyment - creating more winning opportunities. Our Spacious building and friendly staff awards Grankaz with a unique rank above competitors.

We also offer some of the most popular bars on the island; with a large variety of drinks and snacks, signature cocktails and extremely competitive prices, we are one of the nation's favourite watering holes.

Company Culture

Grankaz is a Seychellois owned and Seychellois managed Company, with over 90% of the workforce being Seychellois. The Company is run by a set of guiding principles that we believe is what creates and maintains our proud Company Culture.

Aside from the business side of operations, we also understand our responsibility as a good community partner, and we take it seriously.

We are actively involved with local and regional non-profit organizations and events; and donate charitable contributions to a wide range of community interests. We also encourage employees to volunteer for the sheer joy of helping others – and to make their communities better places to live in. We know that when we help improve the quality of life for our communities, we all reap the benefits.

Plans for the Future

In the next 5 years Grankaz aims to open a fourth offering in the South of Mahe, continuing with the same standard of service and products that define who we are as a company.

There are also plans in the pipelines to diversify in years to come into more family friendly entertainment, offering something for everyone.
